- Share JPEG image files with Picture CD

Easy to use

- As small as portable CD player
- Connect to stereo and TV via standard A/V cables
- Few buttons for simple and easy control

PHILIPS
sense and simplicity

Highlights

Play DVD, DivX and MPEG4

With DivX® support, you are able to enjoy DivX® encoded videos in the comfort of your living room. The DivX® media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX®

CDs can be played back on selected DVD players, DVD Recorders and Home Theater Systems.

MP3-CD, CD and CD-RW music

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A singe CD can store up to 10 hours of music.

Share picture CD (JPEG)

Multi-format playability allows you to view images on the go and play most disc formats for maximum disc compatibility and viewing pleasure.
